DENNIS L. DOWNES, P.E.

**Principal
Electrical Division Manager**

Kansas State University, Bachelor of Science, Architectural Engineering, 1986

Professional Engineer - States of Kansas, and 13 other States

Member of The Illumination Engineering Society and Kansas Healthcare Engineers Association.

For Professional Engineering Consultants: Started working for PEC immediately following graduation in 1986. Currently a Principal in the company and the Electrical Division manager for the Wichita office and 4 remote offices. Almost 30 years of engineering experience in industrial, military, K-12, higher education and healthcare facilities. Design responsibilities included code analysis, specifications, site investigations, field inspections, interior power and lighting design, site lighting system design, site power distribution design, fire alarm systems, emergency generators, public address systems, lightning protection systems, and uninterrupted power supply systems and controls.

Personal: Grew up in Council Grove, KS before attending KSU. Married to Delaina for 24 years with three sons: Logan age 23, Lucas age 21 and Laken age 19. Spends most of the summer judging and skiing in competitive water ski tournaments and in the winter, enjoys working out at the gym and spending time in the wood shop.
