Mr. Gorman is a Principal with Terracon and manages the Lenexa, Kansas environmental department. As a Professional Geologist in Missouri and Kansas, he is responsible for business development, management, and technical supervision of the environmental personnel and projects in the Kansas City region. Additionally, Mr. Gorman manages the GSA Heartland Region Environmental contract, MDNR contracts, and serves on two national environmental resource groups for Terracon Phase I ESA and Telecommunication NEPA services. Mr. Gorman has over 22 years of experience as an environmental geologist/professional and has had equal amounts of experience on Federal/Government projects and on commercial/industrial projects. He holds his bachelor's degree in geology from the University of Missouri-Rolla and his master's in engineering management from the University of Kansas.

On a personal note, Eric has two fantastic little girls (Macie and Myla, 8 and 6) and is married to Lisa, who is pretty awesome in her own right. Current hobby is everything family but is looking to resurrect his enjoyment for running as he had previously completed 12 marathons.
