Matt McQuality, P.E. is the Branch Manager of Geotechnology's Kansas City office. His 20+ years of experience includes coordination, supervision and management of geotechnical subsurface exploration programs for transportation, infrastructure, industrial, warehouse and office building projects throughout the Midwest. Matt is a registered engineer in the States of Kansas, Missouri, Illinois and Mississippi.

Matt is a graduate of the ACEC Kansas Emerging Leaders Program (Class of 2013, I think) and Emerging Leaders Executive Training (Class of 2015 for sure). He is involved in the Kansas City Chapter of ASCE.

Matt is a native of Imperial, Missouri (south of St. Louis) and graduated from Missouri University of Science and Technology (previously known as University of Missouri-Rolla) with a B.S. in Geological Engineering in 1993 and followed up with an M.S. in Civil Engineering in 1996, also from MS&T. He is married to his lovely wife Leah and they have three boys, Jackson, Caleb and Sam. The McQuality family resides in De Soto, Kansas. Matt's favorite pastime is watching his boys play sports.
