I graduated from Kansas State University in 2002 with a B.S. in Civil Engineering. I joined Shafer, Kline & Warren (SKW) in 2005 as a project engineer for the structural engineering group. In 2009, I received my Professional Engineering license in Kansas. I am currently a senior project manager for SKW's infrastructure Services Department in our Lenexa, Kansas, office. As the SKW structural group manager we design of buildings, bridges, miscellaneous civil structures, retaining walls, construction administration, preparing contract documents. I participate in several other professional organizations including KSPE, ASCE, and am currently the Chair Elect of the Lenexa Chamber of Commerce.

My wife Bev and I live in Lenexa with our four children, Shelby (9), Cooper (8) (Irish twins), Brynley (3) and Hudson (3 months). In my "free" time, I enjoy the outdoors, hunting, fishing, camping, and home improvements. Although it seems I don't have time to do those things as much as I used to, I love to support my children in all they do, from coaching baseball, traveling to boy & girl scouts events, or just taking a walk.

An interesting fact about me, I might be the only engineer here married to an architect!
