Simon is a licensed Professional Engineer with 17 years of experience in the delivery of Transportation Projects. His expertise includes the design and management of highway and municipal projects for clients across the State of Kansas and Missouri. Simon is the Roadway Section Manager for HDR's Missouri/Kansas Operations with staff located in Kansas City, Lees Summit, St Louis, and Springfield. As a Project Manager, Simon excels at developing lasting relationship with clients through a "Client First" approach to project delivery. He is also experienced with Alternative Project Delivery Methods, most recently serving as the Roadway Discipline Lead on Design-Build projects involving the Kansas Department of Transportation and the City of Edgerton, Kansas. Simon was a graduate of Kansas State University with a Degree in Civil Engineering.

Simon's passion is to spend time with his wife Lindsay and his two young boys, Logan and Luke. He particularly loves spending time on the golf course and attending Royals game as a family as they are great ways to strength the family bond. Simon also enjoys target shooting, whether that is blasting clay pigeons with a shotgun or punching holes on paper with pistols and rifles... You can say he likes things that make loud noises.
