I currently am a roadway project manager for Olsson Associates in Overland Park, Kansas. After graduating in 1999 from the MU/UMKC Engineering program I joined Olsson Associates, becoming the 8th employee at the Kansas City office, which now has over 125 employees. In the last 13 years I have had the experience of working on a wide variety of public and private projects. I enjoy working with a variety of municipal clients, big and small, throughout Missouri and Kansas.

I have grown up and lived in the KC Metro area all of my life, both in Kansas and Missouri. I live in Lee's Summit, Missouri with my wife Kim, our 8 year old daughter, and 6 year old son, who are both active in sports (which means I am coaching nearly year round). The rest of my free time is taken up by car shows, jeep rock crawling, and home projects.
