As Senior Planner with SKW's Infrastructure Services, Victor Burks works with developers, communities and government entities. Victor has more than 16 years of experience: He has served as Senior Project Planner and a Project Manager for an Olathe-based, civil engineering and land planning firm; as Community Development Director and City Planner for Raymore, Missouri, and has worked for Olathe, Kansas. Additionally, he has worked for the Economic Development Corporation of Kansas City Missouri, (EDC of KCMO) and the County Economic Research Institute (CERI) for Johnson County, Kansas. He is experienced with the preparation of: comprehensive plans, comprehensive plan updates, annexation plans, codes, ordinances, permit applications and subdivision regulations. This includes evaluating planning departments' submittal, review and approval processes and making recommendations to improve or to establish new procedures that can increase efficiency while complying with existing policies, regulations, and ordinances within the larger organization.

Victor received his Master of Urban Planning from the Kansas University School of Architecture, Urban Design & Planning, and is a member of the American Institute of Certified Planners, the American Planning Association, and the American Planning Association - Kansas State Chapter. Victor is married to Angela, and has two teenage daughters, Katrina and Audrey.
