I graduated from Iowa State University in 2007 with a BS in Civil Engineering. After college I began my career with Burns & McDonnell Engineering Company in Kansas City, Missouri where I work in the Transportation Global Practice as a Staff Civil Engineer. I have been active in the Kansas City Section of ASCE over the course of my career by planning monthly meetings and section communications.

Outside of my professional life, I live in Overland Park, Kansas with my wife Lydia and our dog, Ruby. I enjoy cycling, Iowa State athletics, and spending time with family and friends.
