Justin Older is the Director of Energy Modeling at Henderson Engineers (HEI), a national MEP firm headquartered in Lenexa. He is a Registered Professional Engineer in Kansas and a LEED BD+C Accredited Professional. Justin is a leader in sustainability and is charged with educating the firm's technical staff on codes and standards, as well as managing energy modeling projects firm wide. His background in applied research and his passion for details has helped us to establish an industry leading reputation for energy modeling and building sustainability consulting. He is also focused on the development of internal tools, design standards, and technical training for the company. Justin has a BS in Mechanical and Aerospace Engineering from the University of Missouri – Columbia and a Master's Degree in Mechanical Engineering from the University of Missouri – Kansas City. Justin is a member of ASHRAE and consults with energy modeling software developers for product improvement.

Justin lives in Parkville, MO with his wife, Jessica, and two young sons and is passionate about being a present and engaged dad. When the kids are in bed, you can find him in his woodworking shop. He's also pretty good with a bo staff.
