I was born and raised in Colby (God's country), KS and am a 1984 graduate of CHS. After high school, I earned an Associate of Science degree in Mathematics from Colby Community College in 1989, a B.S. in Civil Engineering from Kansas State University in 1991, and became a licensed PE in Kansas in 1996. I began employment out of college with Professional Engineering Consultants and have spent the past 24 years in the transportation division of our Wichita office. I currently serve as Principal and Practice Area Manager of PEC's transportation groups throughout our 7 offices and am responsible for personnel assignments, business development, administration, project management, and quality control of street, highway, and interchange projects.

I have been married to Missy for 28 years and the two of us enjoy spending time watching our son Max run college track & x-country and our daughter Madison play high school basketball and softball. Some of my favorite things to do are spending time outside in the yard and playing golf. I'm also an avid Denver Broncos fan and season ticket holder and had the privilege of sitting in the front row of Superbowl XXXII watching the Broncos beat the Packers!
