I grew up in Puyallup, WA about 30 mins south of Seattle, WA. Went to college at Montana State University in Bozeman, MT graduating with a B.S in Civil Engineering in 2005. Worked at a small firm called Stahly Engineering in Bozeman where most of my work was focused on water and sewer infrastructure development at Moonlight Basin Resort (adjacent to Big Sky Resort). Met Wendy (my wife) playing co-ed softball at MSU and moved to Manhattan, KS in 2008 when she got accepted to PhD program at Kansas State University (Entomology). This worked out well since she grew up in Emporia and has family all over eastern Kansas. I accepted a job at BG Consultants when we moved to Manhattan and my efforts have primarily been focused on Sanitary Sewer Rehabilitation, Lift Station Design and Wastewater Treatment Facility Design.

I enjoy golfing, camping, woodworking, fishing and bow hunting. However, I don't get out to enjoy these things as much as I would like. As a family we camp out and enjoy cookouts, hiking, lake time, pool time, family events and spending time with friends. Wendy and I have a 4 year old boy (Chester) and just welcomed a new boy into the world (Charlie) on 7/7/16. I have family in and around the Seattle area. My wife has family in Emporia, Wichita area and the Kansas City Area.
