Jamie Klein, P.E. is the Office Manager / Geotechnical Engineer in Terracon's Manhattan, Kansas office. Jamie is a graduate of Kansas State University where he earned B.S. and M.S. degrees in Civil Engineering. Following graduation in 2005, Jamie began his career with Terracon in Columbia, Missouri. Jamie returned to Manhattan, Kansas to lead Terracon's office in 2012. In addition to overseeing daily operations, his responsibilities include managing geotechnical engineering and construction materials testing projects through all phases including proposal preparation, drilling and field data collection, laboratory testing, engineering analysis, and report preparation and presentation. He has extensive project experience which includes analyzing deep foundations (auger-cast-in-place pile, drilled shaft, driven pile, and micro-pile), shallow foundations, earth retention systems, slope stability, settlement, lateral earth pressures, swelling soils and pavements.

Jamie enjoys spending time with his wife Holly and three daughters Alex (5), Maggie (3) and Elle (2 months) and takes full advantage of having all grandparents living nearby. He also likes reading during short, intermittent windows of silence and seeking outdoor adventures. His favorite outdoor activities include backpacking/hiking Colorado 14'ers, biking, fishing, hunting, snow skiing and keeping his children afloat at the swimming pool.
