## **Bio**

Jake Borchers is a PMI certified project manager and supervising engineer in WSP's Wichita office. Jake is graduate of the University of Nebraska, earning a B.S. in Civil Engineering in 2004. Over the 14 years with WSP Jake's responsibilities have included design and project management of transportation projects throughout the region.

I was born in Lincoln, NE and will forever bleed Husker Red. While attending college, I met the woman of my dreams, Chantel, while we both worked at a local grocery store. We have been married for 13 years and have one daughter, Jamie (9). Outside of work I enjoy watching Jamie grow up (way too fast), being involved in our church, Husker sports and a good cigar.

## **Fun fact about you that will be surprising/interesting to your classmates!**

My wife and I love to travel – especially to the beach. We have visited six of the Caribbean Islands and are planning a trip next Spring for Jamie's first trip to the islands

## **Favorite quote**

'Work the Problem' - Apollo 13

## **My job would be a lot easier if**

there was 32 hours in a day
