I graduated from Kansas State University with a Bachelors Degree in Architectural Engineering in 1997. I am a licensed engineer and a LEED accredited professional. I joined Orazem & Scalora Engineering in January of 2000 as a staff engineer. I am responsible for project management and design for mechanical, electrical, and plumbing systems for a wide variety of building and construction projects.

My wife Jennifer and I have been married for 12 years. We have three sons Jacoby, Benton and Landon. I enjoy swimming, bicycling, and working on various home improvement and woodworking projects in my garage.
