I grew up in Dodge City, KS. I attended KSU and received a BS in Civil Engineering in December 1999 and began working for Bucher, Willis & Ratliff Corporation in Salina, KS in January 2000. I have worked in the Municipal/Environmental department for the past 10 years and have been involved primarily in water and wastewater projects including collection, distribution, storage and treatment. Currently I am the team leader for the Municipal Engineering team in the Salina office.

I have been active in the Kansas Society of Professional Engineers and recently concluded my service on the chapter board as Past President.

My wife, Susan, and I have four children, Chelsey, Megan, Kourtney and Madison (Yes, all girls!). I enjoy spending time with family and friends, homebrewing, cycling and just being outdoors.
