Jarrold was born and raised in the Wichita area, graduated from Valley Center High School, and went on to attend Kansas State University. After graduating from KSU with a BS in Architectural Engineering in December 1999, he returned to Wichita and immediately went to work for Professional Engineering Consultants, P.A. In 2008, he was made a Senior Associate and accepted a transfer to PEC's Lawrence Office, where he is currently the project manager for the electrical design group. He is licensed in Kansas and Missouri.

During his time with PEC, Jarrold has designed commercial, industrial, educational, and institutional projects, and has had a special focus on hospitals and other health care facilities. He was also the lead electrical engineer for the Intrust Bank Arena recently completed in downtown Wichita. He has been heavily involved in writing and maintaining PEC's master specifications, and is a member and vice president-elect of the Flint Hills Chapter of the Construction Specifications Institute.

Jarrold has been married to his wife Lani for 12 years, and they have three amazing children. He has volunteered over the last 6 years with his oldest son's Cub Scout pack and now Boy Scout troop, and is currently an assistant scoutmaster with Troop 52 in Lawrence. If he had free time, Jarrold would enjoy working on his long list of home improvement projects.
