I grew up in Inman, Kansas and after attending Hutchinson Community College, I graduated from Kansas State University with a B.S. in Civil Engineering in December of 1999. After graduation I began work at Baughman Co. P.A. in Wichita, KS in the Capital Improvement Project division where I have remained for 10 years. My responsibilities include the design and management of arterial road projects and drainage projects, along with supervising the departments support staff.

Life outside of work revolves around my wife of 10 years, Riki, and 3 children, Austin (7), Morgan (5), and Jordan (2). Our family has also recently adopted a retired greyhound racer, Hunter, so there is never a dull moment in our house. My hobbies include attending and watching K-State sports, golf (sometimes), grilling, and attending my kids sporting and Scouting activities.
